

Plant Operator

Redfield Energy, LLC is seeking a plant operator to operate all process and equipment associated with the plant. Individual must learn and operate the DC-Sc computer control system, perform quality control tests on product streams, analyze compiled data and make adjustments to optimize plant production. Individual must be able to manage confined space entry, climb ladders and steps, lift a minimum of 50 pounds, and work a 12 hour workday on a rotating shift. Redfield Energy offers an attractive compensation package with benefits.
